PROJECTS

Motley-Beta (private IP)

- A native application in which a user can traverse a map to access markers containing recorded audio stories.
- I was one of two engineers working on this project.
- React Native, Javascript, Firebase
- Worked on the project for over a year (with over 500 commits to github).

What's in the Pantry

Link to GitHub - https://github.com/gdickey273/whats-in-the-pantry

Link to Deployed Project- https://gdickey273.github.io/whats-in-the-pantry/

- A web based application that allows the user to search for recipes that utilize ingredients they already have on hand.
- I'm one of two back end developers working on this project.
- HTML5, CSS3, Javascript, JQuery, and Bootstrap
